Account Alerts keep you informed about spending, payments and other account activity via e-mail or text message.

Alerts are customizable so you can make changes any time.

## Set Up Custom Triggers

Add frequency and spending threshold triggers to customize the Alerts. Going away? You can even put your Alerts on hold until you return.

## Choose E-mail or Text Delivery

You can choose to receive Alerts via e-mail or text. If you ever need to update your e-mail address or mobile number simply log in to your account to make the change.
